### DETAILED ACTION

1. This is in response to the Applicants' amendment filed on December 27, 2007. Claims 1, 28-31, and 63 are currently pending. Claims 1 and 63 have been amended.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 27-31, and 63 rejected under 35 U.S.C. 103(a) as being unpatentable over Brown, U.S. Pat. No. 5,875,435, in view of Langhans et al., U.S. Pat. No. 5,621,201 (hereinafter Langhans).

As to claims 1, 27-31, and 63, Brown discloses a system for controlling financial transactions of an organization (abstract) comprising:  
a financial management system providing control and accounting for financial transactions of multiple users within the organization (abstract and at least columns 2, 3, and 8).

Brown does explicitly disclose a money transaction card system associated with the financial management system and providing control and accounting for money card transactions within a general ledger of the financial management system; and wherein the money cards comprises a purchase card, debit card, prepaid card, credit card, and travel card.

However, Langhans teaches an automated purchasing control system for an organization (abstract). This automated purchasing control system utilizes an employee hierarchy for monitoring, maintaining, controlling, and reporting purchases made by respective employees using corporate cards. Upper level employee can request billing reports for the levels beneath them (col. 3 and 4). Langhans also details unique reporting generation (col. 16). Langhans discloses various types of money cards including credit, debit, purchase, prepaid, and travel (at least col. 5). It would have been obvious to one skilled in the art at the time of the Applicants' invention to combine the money card system of Langhans within the financial management system of Brown in order to control and maintain employee purchases as well as keep accurate accounting and financial records.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1, 27-31, and 63 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
